Thousands of Men Go To Work Increasing Industrial Activity Throughout the Country -Thousands of Toilers Profiting by Defeat of Free Silver.

Dispatches from various cities of the ountry during the past week conveyed the cheering information of scores of milis and factories resuming operations, and of thousands of men, who were idle pending a settlement of the financial is sue, being set to work. Restored confidence manifested itself at all industrial centers. It was particularly strong in the Monongaheia valley, the greatest iron and steel center in the United States. In that region furnace fires were lighted last Monday morning and by nightfall the sky was aglow with the red lights from rolling mills and millions of sparks from steel converters and blast furnaces. Such a sight had not been wit nessed in that region for many months.

The three great steel plants of the Carneria Steel company in the vicinity of Braddock, Pa., joined the long list of industrial concerns which have set wheels going since the election.

The brightest sight comes from across the river from the Homestead steel works, whose ponderous machinery be gan to move at 6 o'clock Monday eye ning. Twenty-five hundred men went to work at that hour, and 2,500 more took their places Tuesday morning.

There are seventeen mills at the fam ous Homestead plant, and each manu factures products distinct from any of the others. Fourteen of these mills have orders to run night and day henceforth, and the three remaining mills, which in clude the 133-inch, 119, and 112 inch beam mills, operated single turn during the week and this week will go on full with the others. The armor-plate rolling mills and armer machine shops are included in the mills that are running to their capacity.

The Homestead plant, because of the great variety of its finished product, has fared better than any of the other Carnegie plants during the last season of business stagnation. The converting mill, girder mill, armor press shops, and the two structural mills have been operating to about half their capacity. The other departments would run for two or three days at a time and then sus pend for several weeks.

The indications are that the Home stead mills will run all winter, barring any disturbance of the annual wage scale, which is altogether improbable

The Edgar Thompson steel works employes, who started to work Monday night after a summer's practical idleness, have visions of steady work all through the coming winter. Orders be gan to arrive slowly for steel rails the week after election and heavy orders have been placed for shipment next spring. The old steel rail plant, which manufactured train rails and others of shorter and lighter grades, resumed with 500 men. The plant manufactures reg ulation railroad rails and employs 1,200

Six of the Carpegie company's nine blast fornaces at Braddock are in blast. and the remaining three are ready to go on at any time. With pig iron down to bedrock prices all summer, these furnaces have been off since April and May. The Duquesne steel works of the Car negie company at Duquesne, which also started Monday night, employes 1,500 skilled hands, and 400 at the new blast furnaces, which have just been blown in, and are said to be second in production capacity only to F and G of the I will sell my farm of 40 acres, four Braddock furnace plant, the heaviest gain. New farm house, 2 rooms; 2 good wells, new stable; all under cultivation. Time given on part. Call on or address, the billet mill being the largest and best

equipped in the world. A prominent official says the company's books are full of orders, and double time throughout the winter will be theorder.

The wage scales in force at all the Carnegie works mentioned above terminate on December 31 next, and the 12,000 employee all expect a satisfactory settlement of the scales to be operative next year.

The New Yord and Cleveland Gas Coal company has all its mines at Turtle Creek, Sandy Creek and Plum Creek sending out coal. Two pits at Turtle I extend a cordial invitation to my Creek and three at Sandy Creek are the

While the coal miners are not depen dent upon the general industrial conditions for operation, the resumption of is due to the settlement of the wage scale, resultant from the election. The company has held out against all the other operators in the district since last spring.

The Braddock wire works of the Con. solidated Steel and Wire company have taken on 950 men. The nail and wire mills started on the 11th. The rod mills resumed at 6 Tuesday morning. The galvanized department was opened Monday night, and an additional force of men was put at the pits. It will work double turn, and every Sunday night hereafter, to allow the company to keep abreast of its orders for galvanized wire. The other mile and factories in the vicinity of Braddock which are still idle

How to Prevent Pneumonia At this time of the year a cold is very easily contracted, and if left to run its course without the aid of some reliable cough medicine, is liable to result in that dread disease, pneumonia. We know of no better remedy to cure a cough or cold than Chamberlain's Cough Remedy. We have used it quite extensively and it has always given en tire satisfaction.-Olagah, Ind. Ter.

This is the only remedy that is known

"If only one magazine can be taken, we would suggest the REVIEW OF REVIEWS, as covering more ground than any other magazine."-Board of Library Commissioners of New Hampshire, 1896.

THIS magazine is, in its contributed and departmental features, what its readers, who include the most noted names of the English-speaking world, are pleased to call "absolutely up to date," "thoroughly abreast of the times," "invaluable," and "indispensable." It is profusely illustrated with timely portraits, views, and cartoons. Its original articles are of immediate interest, by the best authorities on their respective subjects. The Editor's "Progress of the World" gives a clear, rightly proportioned view of the history of the human race during the current month. The "Leading Articles of the Month" present the important parts of the best magazine articles that have been written in every part of the world. The newest and most important books are carefully reviewed. Indexes, chronological records, and other departments complete the certainty that the reader of the REVIEW of Reviews will miss nothing of great Send to Cents significance that is said or written or done in Stamps for throughout the world. A Colored Tribune Supplement.

The American people live such busy and bustling lives, whatever their oc cupations, that they do not take enough time for recreation. In many cases, there is no opportunity even if there were time for enjoyment. It is in resresolved to issue a colored supplement of 16 pages, full of political cartoons,portraitsof prominent people, comic pictures, jokes and entertaining matter, to the readers of its Semi-Weekly paper.

While primarily intended for the young and for those members of the family who have a craving for lighter reading than politics or business, this supplement, which is entitled "Twinkles," promises to be of interest to every member of the family. There is great need for a low priced popular humorous weekly in this country. The present A Corset pictorial weekhes, whether printed in black or in colors, all sell for 10 cents a copy, or for \$5.00 a year. The Tribune's the figcolored supplement is virtually a 5 cent pictorial weekly, in several colors, worth ure as a \$2.50 a year. As this price, however, it would be expensive, if sold separately, but it is to be sent free to every sub. fits the scriber to the Semi Weekly Tribune who sends to The Tribune direct the regular price of \$200 a year. This is a bargain, considering the fact that The Tribune is incapable of sending into any family anything which is unfit to be

read there. It is to be noted, in connection with this matter, that the craving for color and innocent entertainment, if not gratified by a reader's favorite paper, will, in these times, lead him to buy less desirable publications. The Tribune recommend them. is a great, safe, clean family paper, and in adding "Twinkles" to the attractions of The Semi Weekly it has borne distinetly in mind, in the make up of the Oregon, - Missouri. supplement, its obligations to the family.

To get "Twinkles" subscribers must order from The Tribuge direct.
